Subject: RE: EPA Response to your Request

Linda, We are actually very confused about the process. Does Encana have to bring this exemption back to the WOGCC? Does the WOGCC respond to EPA's letter or does Encana? What is the next step in the process? Thanks for your help understanding this process. Jill

Jill,
Thanks for your message. As you may be aware, the Encana aquifer exemption request is currently a pre-decisional matter. Therefore, we are currently not able to specifically address your question at this time.

Thank you, Linda. I already got a copy of the EPA letter from WOGCC last week. I will also pursue a copy of the transcript through them. I know Karla and she is always very helpful. Can you please tell me how EPA will proceed? Thanks again, Jill Morrison

Subject: EPA Response to your Request

Hello Jill,

Per your April 10, 2013 information request, I am attaching a copy of the letter that EPA sent to the Wyoming Oil and Gas Conservation Commission (WOGCC) on April 8, 2013.

Since the WOGCC is the lead regulatory agency for Encana's aquifer exemption request, and because this request has not been formally submitted to EPA for approval, please address all follow-up questions/comments to the WOGCC.

We also ask that you contact the WOGCC to request a copy of their March 2013 Hearing transcript. This document was created to support the WOGCC hearing process. Therefore, their agency can provide the best service in getting this information to you. I've been informed that the WOGCC staff who may best be able to assist you is:

Karla Sanford, Legal Assistant
